Parliament House,
Tuesday 15th of August at 12pm

Harvest Terrace, West Perth

The Aboriginal Cultural Heritage Act 2021
is more than a threat to farmers, food security and your property!

It will destroy them all!

Speakers will include **Greg Kenney**, President Rural Action Movement, **Rod Culleton**, Vice President Rural Action Movement and former Senator, **Len Harris**, former Senator, and **Darren Dixon**, Constitutional advisor, **addressing matters at the Legislature level.**

The Aboriginal Cultural Heritage Act 2021 has very little to do with racial issues, it is largely about controlling farmers and land in a way that has never been done in history. "Sustainable" for the globalists is NOT sustainable for We The People, including our farmers.

Stand up now, or forever hold your peace!
